

Engineering Excellence

ISO 9001 COMPANY

LIVE THE FUTURE

Advanced Production Technologies

The company is planning for four manufacturing plants with total production capacity of 1,20,000 MT per annum. Spread over 2,50,000 sq. feet area, the state of the art manufacturing facility shall be equipped with CNC operated machines with complete automation for handling the components. Even the drilling & punching of holes in H & I beams, small angles, bracings, etc. is also carried out on CNC operated automatic machines.

Applications of Structural Steel Buildings

Power Plants

Refineries

Industrial Sheds

Ware Houses

High Rise Buildings

Cold Storages

Metro Stations

Air Craft Hangers

Residential Complexes

Commercial Buildings, etc.

ISO 9001 COMPANY

LIVE THE FUTURE

Fedders Lloyd - Advantage

50 Years of Global Presence

The Group is recognised for its products and services for more than 50 years in India and abroad. The group core strength lies in providing distinctive and customized solutions.

Most Modern Manufacturing Facilities

The company has four manufacturing plants having a total production capacity of 1,20,000 MT per annum. Spread over 2,50,000 sq. feet area, the state of the art manufacturing facility is equipped with CNC operated machines with complete automation for handling the components. Even the drilling, punching hole in H & I beams, small angles, bracings, etc. is also carried out on CNC operated machinery.

Most Economical Solution with Engineering Backup

Our Engineering strength lies in optimizing design of steel thereby reducing the weight substantially yet maintaining the strength & design criteria. We use customised software & in-depth analysis tools and computerise the entire processes as to maximise the efficiency & work flow. All the manufacturing process are carried out under one roof

Prompt deliveries, World Class Quality & Strong After Sales Support

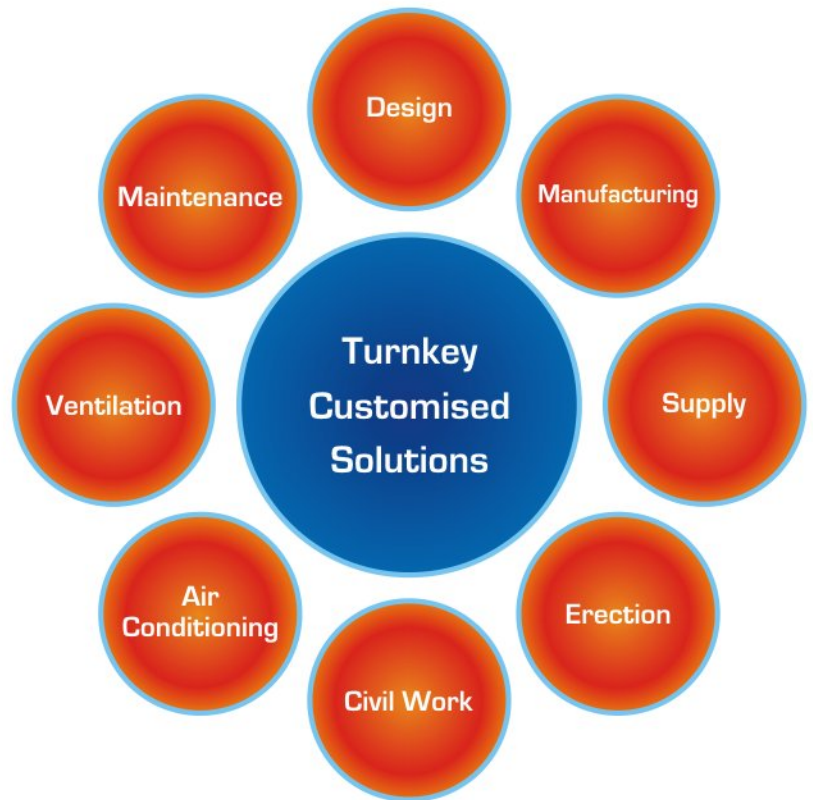

Our state of the art fully automated manufacturing process reduces the delivery time substantially, making us deliver at a faster pace keeping the quality consistent. The quality assurance department checks all incoming raw material & finished goods to ensure defect free product to our customers.

The quest for excellence is the driving force of Fedders Lloyd.

Turnkey Customised Solutions

From concept to creation is the core theme of Fedders Lloyd Structural Steel Division. All structures are designed using latest customized computer software as per Indian/International standards with special emphasis on structural stability & durability. Be it manufacturing or erection, civil work or air conditioning, you can be sure that all the work will be carried out to the highest standards.

Service Commitment
